Claimed by McKinley Managers.

"LILLY WHITES."

Contesting Delegations Heard-The Strained Relations in Berlin Explained.

Sr. Louis, June 14-Mr. McKinley's headquarters have been crowded all day and tonight access to them was almost impossible. Mark Hanns and General Grosvenor after tonight's session of the national committee said McKinley had 640 votes as the contest now stands. Major Charles Dick, who is doing the sabulating as the committee proceeds with the temporary consideration of o.nination.

The harmony in the Ohio delegation s a feature that has not been seen at a national convention for twenty years, oot since a solid delegation went to the Cincinnati convention in 1876 for R. B. Hayes

Sr. Louis, June 14-The national ommittee made somewhat more rapid progress today than at former sittings n disposing of the contests over disputd seats. The day was given up largely to the consideration of the vexed querions presented by the Texas and Caroins controversies, involving the entire lelegation from South Carolina and the greater part of that from Texas. The contests in both of these states involve similar questions, as in both instances hey grew out of the rivalry between the old and the new factions of the party. There is in both states a faction known as the "Lily Whites," representing an element that is trying to build up the republican party among white cople of their respective states. They had in each of the states an independ ent organization which sought recognition at the expense of the committee. In ooth instances the national committee

BERLIN, June 14-The political sens tion of the week, edipsing even Emperor William's toast to the czar and he telegram of condolence to the widow of Jules Simon, is the speech, which only recently leaked out, of Prince Lud wig of Bavaria at Moscow and the strained relations between Berlin and Munich which were thereby revealed It is true that there have been many ndications of ill feeling since a year ago, when the emperor reviewed the Ba varion army and upmistakably showed to the chagrin of the regent, Prince Luitpold, his desire to be considered the superior commander in fact as well se in name and, more recently, in the manner in which the peace jubilee was celebrated at Munich, without a menof the emperor of empire, the imperial army or the imperial flag, and it is now added that the regent is going to visit Vienna in-stead of Berlin, which has accentnoted

he strained relations, as did the atne of the diet and of the press. Sr. Louis, Mo., June 15-Presiden nakers awoke today to a drear drizzling rain which fell like a wet blanket over the gaudy street decorations, and repressed whatever tendency there might have been to demonstrative enthusiasm of the sort which cropped out sufficiently on Sunday to give an old time convention air to the city. The colored men received several bales of posters, samples which they proceeded to paste were of an aggressive yellow hue which

flaming red letters announced "We are for gold." Sr. Louis, Mo., June 15-At McKiney headquarters today there was more of a jam than heretofore but there is no change in the claims of Grosvenor, Hahn, and Thompson who do the tabulating. Unless there is some break from the opposition the McKinley vete will not exceed 640 out of 918 on an estimate of his managers. Governor Bradley and the Kentucky delegates arrived today. There had been reports about strained relations between Bradley and Hanns but they are reported to have had a friendly but informal meeting today and the Kentucky vote is counted in McKinley's favor by the latter's managers. Hanna during the forenoen recelved the southern delegations.

Sr. Louis, Mo., June 15-In headquarters all the other candidates for the presidency are opposed to Mo-Kinley. There is this morning a general air of lassisude that demonstrates a realization that any attempt to stem the tide toward his nomination will be unsuccessful. Even the temporary election was felt at Maine bendquarters and shared in by the New Yorkers over the threat made by the majority of colored voters to withdraw their support from McKinley and throw it to Reed, was not deep rooted, and a lack of enthusisem seemed rather to dampen the ardo; of the colored men who expected a royal reception. As fully analyzed this morning and the analyzation presented to several leaders for approval the result may be summed up as follows: The names of Morton, Allison, Quay and Reed will be presented to the convention for a vote with no other reason than to prove the delegates loyal. The battle this morning is purely upon financial grounds. Maryland's delegation visited Platt's rooms early this morning and declared for a gold standard with the word gold in the plank. This Meyer streets.

GATESVILLE, TEX. makes thirteen states that promise to stand by Piatt, New York included. As yet Ohio bas not signified a willingness through Hanna to accept this, and so sure is the latter of the control of the convention that he believes he can or use his own judgment and strike it out. The plan at present is to have an adjournment of the convention after the nomination for president is accomplishthey had any conference with each other looking towards the withdrawal of minor

## PLATFORM AGITATION

Grosvenor says the Financial Plank will be "What we Want."

St. Louis, Mo., June 15-Today was one of platform agitation. A three cornered fight has drawn the lines sharply. The men from the esst demand gold in the platform and are very determined. Lodge, Platt, and other opponents of McKinley seem to feel contests, puts the McKinley vote on the that they are placing McKinley in a irst ballot at 633, with 460 necessary to hole by insisting on an emphatic gold declaration. Their programme is to force the fight is the committee on re solutions and if they cannot committee to carry it to the convention.

Lodge, Reed's manager, is to lead the fight for gold. General Groevenor of Ohio said this morning: "We know there is great effort being

made to force a certain form of declara tion. The probabilities are that no one will know what the financial plank will be until the committee on resolutions J Spicer, A J Preston, Phil Schreiber Thos Bullock, K L Hart, S R Wood, E report. It may be a tight as to the of resolution that will be carried toform convention. The financial plank will be what we want; that is all there is to

The silver men were at first disposed to aid the ultra gold men in securing the straightest kind of a declaration but there is an indication that they are not quite so enthusiastic in that direction as at first. There are some who seem youd the corner of Seventh avenue and anxious to make a dramatic exit from Washington street, and a moment later the convention hall but the court up to a bewildered man was seen running

Man Killed at Morenci News reached here this week of another killing at Morenci, which occurred last Sunday just before sun

down. as "Peter the Baker" was shot and killed by another Mexican named Severo, who was a furnace tapper in the employ of the Detroit Copper company. Severo made his escape.—Bulletic.

For your Protection .- Catarrh "Cures" or nies for Catarrh in liquid form to be taken internally, usually contain either Mercury or odide of Potassa, or both, which are injurious if too long taken. Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal cold of damp weather. It starts in the massl passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the re-sults of catarrh will follow; severe pain in the head, a roating sound in the ears, bad breath, and oftentimes an offensive dis-charge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents

Enjoyable Picnic-
